

Spring 2023

	3/27 Classes begin	3/28	3/29	3/30	3/31	4/1 & 4/2 Last Day to Add/Drop or Change Grading Option (Saturday)
4/3 Registration Begins: Summer 2023	4/4	4/5	4/6		4/7 Easter Break: No Classes	

Use the Quarter calendars to record long-term assignments for all classes. This kind of schedule helps prevent you from being "surprised" by upcoming tests or assignments.

1. Obtain the syllabus for each of your classes.
2. Note dates for tests, quizzes, and long-term assignments such as reports or papers on the calendar. If you are taking a class where a research paper is assigned, set up intermediate dates for completing the steps necessary to finish the paper.
3. Keep the current quarter schedule posted for reference as you plan when to work on specific study tasks.
4. Use the quarter schedule in conjunction with a more detailed day-to-day calendar or planner to keep you on track. Additionally, try to create a study routine for your week to ensure that you spread out your studies.

- Review all important dates on the Seattle U Academic Calendar:
<https://www.seattleu.edu/registrar/academic-calendar/>
- Familiarize yourself with different SU systems: mySeattleU Student Planning, Canvas, Email, etc.
- Review graduation requirements on mySeattleU Student Planning (under "Program Evaluation")
- Review the Academic Advising Resource Guide on the Advising Services website.
- Find out who your academic advisor is and set up a meeting well in advance of registration for next quarter.
- Check your AP/IB/Running Start/Transfer credits (if applicable) on your Program Evaluation to ensure your scores are processed and accurate.
- Review Grading policies, grading breakdowns, assignment due dates, etc. on your Course Syllabi
- Draft a list of questions for your advisor to bring to your advising appointment.
